**OTKRITIE CAPITAL U.S. INC.  
NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2015**

**1. Nature of Operations**

Otkritie Capital U.S. Inc. (the "Company"), is a Delaware Corporation and wholly owned subsidiary of Otkritie Securities Limited (the "Parent"). The Company is registered as a broker/dealer under the Securities and Exchange Act of 1934. It is a fully disclosed broker/dealer whereby it does not hold customer funds or securities. The Company is a member of the Financial Industry Regulatory Authority (FINRA) and the Securities Investor Protection Corporation (SIPC). The Company solicits major U.S. institutional accounts for the purposes of investing and trading in foreign securities, in American Depositary Receipts, Global Depositary Receipts or local shares primarily originated from Russia and the CIS region.

**2. Summary of Significant Accounting Policies**

The following summary of the Company's major accounting policies is presented to assist in the interpretation of the financial statements.

***Cash and cash equivalents***

For purposes of reporting cash flow, cash and cash equivalents include money market accounts and any highly liquid debt instruments purchased with a maturity of three months or less, which approximates fair value.

***Concentration of credit risk***

The Company maintains cash and cash equivalent deposits at banks and other financial institutions. The balances are insured by the Federal Deposit Insurance Corporation up to \$250,000. Cash deposits, at times, exceed federally insured limits. The Company has not experienced any losses in its cash and cash equivalents, and believes that there is no significant risk with respect to these deposits.

***Furniture and equipment***

Depreciation for furniture and equipment is provided for on a straight-line basis over the estimated useful lives of such assets. The estimated useful life of the furniture and equipment is five years.

***Revenue recognition***

The Company recognizes revenue from executing trades and distributing affiliated research. There is no material difference between settlement date and trade date. Trading gains are based on day trading. Trading gains and losses, commission income, and related commission expense are recorded on a trade date basis.

See report of independent registered public accounting firm

**OTKRITIE CAPITAL U.S. INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2015**

**2. Summary of Significant Accounting Policies (continued)**

***Income taxes***

The Company records deferred taxes using the asset and liability method. Deferred taxes are recorded to reflect the tax consequences on future years of temporary differences between the tax basis of assets and liabilities and their financial reporting amounts at year end, based on enacted tax laws and statutory tax rates applicable to periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

The temporary differences between the tax bases of assets and liabilities and their financial reporting amounts generally relate to capitalizing startup costs for tax purposes as opposed to expensing these costs for financial reporting purposes and differences in depreciation methods used for financial reporting purposes and tax purposes.

***Uncertain tax positions***

The Company has not recognized any respective liability for unrecognized tax benefits as it has no known tax positions that would subject the Company to any material income tax exposure. A reconciliation of the beginning and ending amount of unrecognized tax benefits is not included, nor is there any interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expenses, as there are no unrecognized tax benefits. The tax years that remain subject to examination are the periods beginning on January 1, 2012 for all major tax jurisdictions.

***Use of estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

***Computation of customer reserve***

The Company is exempt from customer reserve requirements and providing information relating to possession or control of securities pursuant to Rule 15c3-3 of the Securities Exchange Act of 1934. The Company meets the exempting provisions of Paragraph (k)(2)(ii).

**OTKRITIE CAPITAL U.S. INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED DECEMBER 31, 2015**

**2. Summary of Significant Accounting Policies (continued)**

***Contingencies***

In the normal course of business, the Company assesses potential liabilities in connection with lawsuits and threatened lawsuits under FASB Codification ASC 450 *Contingencies*. The filing of a suit or formal assertion of a claim or assessment does not automatically indicate that accrual of a loss is appropriate. An accrual would be inappropriate, but disclosure would be required, if an unfavorable outcome is determined to be only reasonably possible or if the amount of loss cannot be reasonably estimated. If an unfavorable outcome is assessed as probable and the amount of loss can be reasonably estimated, an accrual and disclosure would be appropriate.

**3. Related Party Transactions**

During the year ended December 31, 2015 the Company paid wages, payroll taxes and employee benefits for two employees who worked for the Parent, due to geographic proximity to the Company. The Company also provided and paid for access to their back office system, as well as other expenses paid on behalf of the Parent. Additionally, the Parent charged the Company for services rendered to the Company and for expenses related to the Company that were funded by the Parent. As of December 31, 2015, the Company owed the Parent \$242,023.

Under a transfer pricing arrangement established by the Company and agreed to by the Parent, the Company executes trades entered into with their Parent and receives a \$.05 per share commission utilizing a transfer pricing schedule that conforms to IRS regulations. The commission rate is reviewed on an annual basis to determine if the commission rate is still compatible with the current marketplace. During the year ended December 31, 2015, the Company earned \$834,377 of commissions from their Parent.
